Purchasers of Bohemian oars are organizing in all parts of the state for the purpose of contesting the payment of the notes given by them. At Flint over fifty persons have combined for this purpose. We understand that the Dundee Bohemian Oat Association is soon to be dissolved. This is the one to which some of our farmers belong. If the association does dissolve, the question then arises as to who will be responsible for the bonds issued. There is trouble ahead for someone in this business. LATER—Since writing the foregoing Dr. Clark informs us that he attended a meeting of the association at Dundee on Tuesday, and that the association will do no more business. But very few oats have been sold this year, and many of last year's bonds have not been redeemed. The members in this section who sold oats to farmers this season will endeavor to affect an honorable and satisfactory settlement with their customers. The members will be considerable out of pocket.—Richmond Review.

An exchange says: "After you get on your ear and make up your mind to stop your paper to make the editor feel humiliated, just poke your finger in water and then pull it out and look for the hole. Then you will know how badly you are misled. The man who thinks a paper cannot survive without his support ought to go off and stay a while. When he comes back he will find that half his friends don't know he was gone. The other half didn't care a cent, and the world at large didn't keep an account of his movements whatever. You will find things you cannot endorse in every paper. Even the Bible is rather plain and hits some hard licks. If you were to get mad and burn your Bible the hundreds of presses would still go on printing them and if you would stop your paper and call the editor all sorts of ugly names the paper would still be published. And what is more you will sneak around and borrow a copy of it every week from your neighbors. It would be much better to keep your vest pulled down and your subscription paid a year in advance."
